

Wireless Level Indicator

MODEL S207E

**FULLY WIRELESS • SIMPLE TO INSTALL
FOR ANY TANKS WITH DEPTH UP TO 4M (13')
UP TO RANGE OF 300M (1000')**

The Tank Unit bounces a sound wave off the water to detect the level and sends this to the Bench Unit. Simply press the button and see how full the tank is.

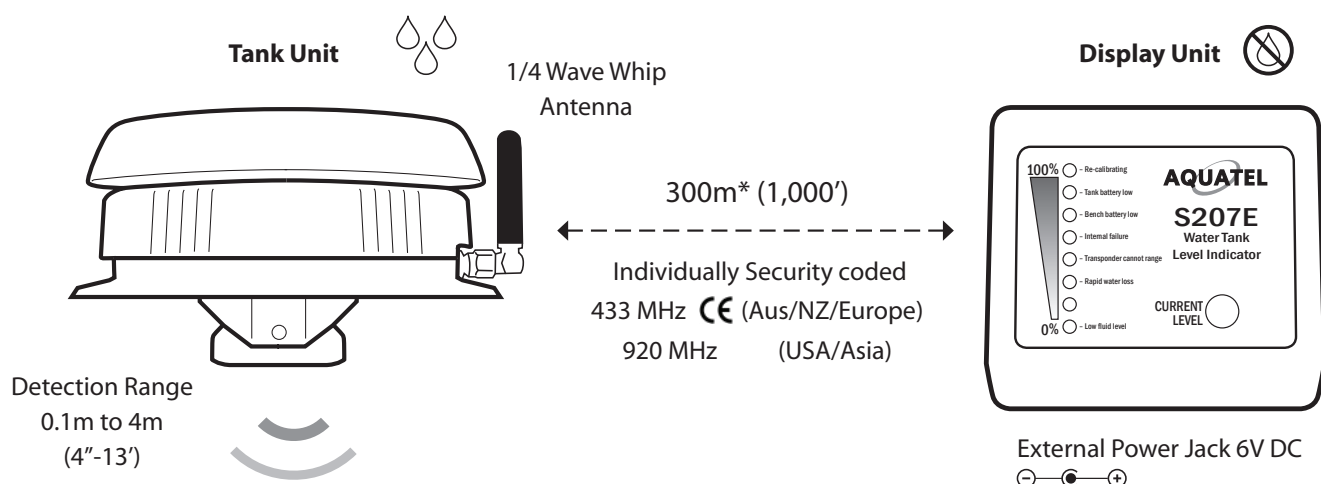

How it works

The S207E is a very effective way to know just how much fluid is in your tank. It is the worlds smartest fully wireless domestic Tank Fluid Indicator. It auto-updates to a small and stylish desktop indicator placed in your home.

By simply pressing a button on the interior bench unit, you see current fluid level in your tank. Warns of rapid fluid loss. Aquatel S207E will even tell you when to replace the batteries. Easy DIY installation – can be installed in less than 10 minutes.

Specifications : S207E

- Temperature range : -10 to +60°C (14-140°F)
- Approval : AS/NZS 4268:2003
1:2005 CE
- Housing : ABS Plastic
- Circuit Boards : ROHS compliant
- Long battery life

- Use on any non-flammable fluid (water, diesel, septic)
- 4 x AA Alkaline batteries (supplied)
- 1/4 Wave Whip Antenna
- 135mm diameter x 80mm H (5 3/8" D x 3 1/8" H)
- Up to 2km (1 1/4 mile) when used with AQ433-6 or AQ920-6 Antenna's

- Antenna: PCB Loop Antenna
- 4 x AA Alkaline batteries (supplied)
- 92mm W x 73mm D x 50mm H
(3 5/8" W x 2 7/8" D x 2" H)

* Range shown is line of sight. Objects between units will reduce range
